Noel Capon : Capon's Marketing Framework 3rd Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Capon's Marketing Framework 3rd Edition:

Capon's Marketing Framework is shortened version of Managing Marketing in the 21st Century that, nonetheless, provides a solid framework for marketing students. This book is about understanding how to develop market strategy and managing the marketing process. It is not a book that attempts to describe all there is to know about marketing, but focuses on what the prospective manager needs to know. This book differs from other senior undergraduate and introductory graduate-level marketing texts. We take a position on what we believe is a better or worse course of action for marketers. Marketing is an applied field, and we believe that textbook writers should provide guidance for good marketing practice. Also, we focus on the manager, not just the marketer. For readers committed to a career in marketing (and we hope there are many), this book will form a solid foundation as you study marketing further and

deeper. But the vast majority of you will not work in marketing departments, and will instead become senior executives, general managers, CFOs, and CEOs. We write for you also because an understanding and appreciation of marketing is central to virtually every important decision that managers make. Because this will be the only marketing course many of you will take, in a sense, this book provides what every general manager and senior executive must know about marketing. Marketing activity lies at the core of leading and managing a business. It provides the focus for interfacing with customers. Marketing is also the source of insight about the market, customers, competitors, and complementers, and the business environment in general. Marketing is concerned with the firm.
