By Nicholas Night Finally! A marketing book that is a joy to read. Not only does David Newman present easy-to-implement strategies here, he also presents his expertise in a visually engaging manner. The basic premise of marketing is to bring a product to market - tell the world about it, extoll its virtues, and differentiate the product from anything else. In other words, get people excited to buy your product! So, when it comes to writing a book about marketing, how well do the authors "bring their product to market"? What makes it stand out from the 1000 other books on the subject? How will they (as expert marketers) get your attention? If you're curious as to who knows what marketing is all about, take a look at the pages of their books. As the old saying goes, "The proof is in the pudding".
