0 of 0 people found the following review helpful. Starting an online business? Read this first!!!!By Miss PegI have never started an online business, but have contemplated doing so. This book is a gold mine of information of what to look out for, things I would not have thought of. I would have probably made some of the mistakes, and this book has

saved me from doing so. I highly recommend reading this before you go any further in your online business process. Preferably before starting anything.

This book is a powerful tool to help anyone who is thinking of starting an online business or has an existing website. Its an insightful guide on how to protect and keep control of your website. Stanford exposes what happens when mistakes are made through real-life examples from real businesses and experiences."Dewitt was a major contributor in heling us regain control of our ebsite and all our internet issues and showed us how to keep control of it for the future" nbsp; _____ Michael Asaly, Practical Sleep Solutions, LLC"Dewitt has an online business knowledge that is not common to most. If you are looking for rock solid advice to get your online business on the right track, he is your guy" nbsp;_____ John Limbocker, Internet Dominatorsnbsp;

"We hired a company to develop our website which we were unable to access or make changes to without an additional cost every time. DeWitt provided the insight on how we can steer clear of those issues in the future" _____ Ken Zammit, Insurance Agent
