**John Fay : Drug Testing** before purchasing it in order to gage whether or not it would be worth my time, and all praised Drug Testing:

Drug Testing focuses on the contributions of drug testing in the identification of the state of drug abuse and the implementation of policies and regulations making drug use unacceptable either socially or in the workplace. The

book first gives an overview of drug-testing policy, facilitating drug testing and treatment, challenges to drug-testing programs, and state, local, and federal legislation on drug testing. The text then defines the problem of drug abuse, including dimensions of abuse, defining the problem and the needs of employers, employing a drug abuse survey, and treatment modalities. The manuscript ponders on the development of a drug-testing policy, education of employees, and training of supervisors. Discussions focus on the nature of learning, principles of supervision, training process, program implementation, basic assumptions, final policy content, and problematic issues. The implementation of a drug-testing program, collection of specimens for drug testing, and understanding the drug testing program are also underscored. The publication is a valuable reference for readers interested in drug testing policies, treatment, and effects of drug abuse in the workplace.

About the Author Mr. Fay was a special agent of the U.S. Army Criminal Investigation Division (CID) and later the Director of the National Crime Prevention Institute at the University of Louisville. He has held security management positions in the petroleum industry while teaching at the university level. He holds the Master of Business Administration degree from the University of Hawaii, and is a well-known and respected author of many books, including Butterworth's Security Dictionary: Terms and Concepts, Drug Testing, Encyclopedia of Security Management: Techniques and Technology, and Model Security Policies, Plans, and Procedures, all by Butterworth-Heinemann. Was a special agent of the U.S. Army Criminal Investigation Division (CID) and later the Director of the National Crime Prevention Institute. Former manager of security for British Petroleum's operations in the Gulf of Mexico. He was previously an adjunct professor at the University of North Florida and the University of Houston.
