Larry Helton, Jr.A more intense study and practice of the fine art of dumpster diving and garbage picking. A must for all you trash mongers.

It's been 10 years since the publication of John Hoffman's cult classic of urban scavenging, *The Art and Science of Dumpster Diving*. Now the Garbage Guru is back with an advanced course in the unconventional economics of exploring the trash for fun and profit. Just some of the lessons you will learn include: the key secret to dealing with locked dumpsters; how to dive for information and use it to humiliate corporations, politicians and other evil-doers; the unusual profitability of diving for movie and celebrity castoffs; the BIG-bucks potential of industrial diving, including the top 10 most lucrative places to do it; how to sell your dumpster-dived wares through the flea market of the 21st century - eBay; how to parlay dumpster diving consciousness into finding cheap property, supporting radical causes, even landing political office; and much more!

About the Author John Hoffman's career as a bona fide fringe writer began with the publication of his cult classic, *The Art and Science of Dumpster Diving*. His previous employment is equally checkered — he has worked as a psychiatric counselor, printer's assistant, security guard, pizza cook, soldier, activist, newspaper reporter, hotel clerk, apartment manager and city councilman. He is now studying for a law degree.
