From OUP Oxford : Economic Management in a Hyperinflationary Environment: The Political Economy of Zimbabwe, 1980-2008 before purchasing it in order to gage whether or not it would be worth my time, and all praised Economic Management in a Hyperinflationary Environment: The Political Economy of Zimbabwe, 1980-2008:

This volume provides an accessible and up-to-date account of the difficulties that the Zimbabwean economy and its population experienced during the crisis which peaked in 2008. It details the suffering and chaos that befell the country with dramatic socio-economic consequences on growth, macroeconomic stability, service delivery, livelihoods, and development. The volume seeks to provide a political economy analysis of leadership and economic management in developing economies based on Zimbabwe's experience. It examines the triggers of the crisis, and the negative impact on productive sectors such as manufacturing and agriculture, social sectors such as education and health, and on financial services. The volume will be of interest to students of policy and economic management, as well as to government departments, central banks in developing countries, development agencies, donors, and NGOs.

About the Author George Kararach, Senior Consultant, Statistics Department, The African Development Bank, Tunis, Raphael O. Otieno, Director of Debt Management Programme, Macroeconomic and Financial Management Institute of Eastern and Southern Africa (MEFMI), Harare George Kararach is Senior Consultant in the Statistics Department at The African Development Bank. He holds a PhD in Economics from Leeds University. He published three books: *Macro-economic policy and the political limits of reforms in developing countries* (ARRF, 2011), *Rethinking development challenges for public policy in Africa* (with K. Hanson and T. Shaw, Palgrave Macmillan, 2012), and *Development Policy in Africa: mastering the future?* (Palgrave Macmillan, 2014).
