Jeff Lewis : Global Media Apocalypse: Pleasure, Violence and the Cultural Imaginings of Doom before purchasing it in order to gage whether or not it would be worth my time, and all praised Global Media Apocalypse: Pleasure, Violence and the Cultural Imaginings of Doom:

The modern world seems trapped between fantasies of infinite pleasure and the prospects of total global catastrophe. *Global Media Apocalypse* explores these contrary imaginings through an evolving cultural ecology of violence. Articulated through the global media, these apocalyptic fantasies express a profoundly human condition of crisis.

'A visionary analysis of contemporary global conditions. . . . Essential reading for anyone interested in media, culture and the future of the planet.' - Dr Kristy Best, Murdoch University, Australia
