financial prosperity. The missing link in most of them is the how question. This book is better than most as the writer submits some practical ideas, but still a lot of vagueness. Pastor Jon Hendry of 0 people found the following review helpful. Great Financial Wisdom By Dbeads4uI loaned this book to a friend years ago and it's message is still sound. Keys to Financial Excellence is a book written from an ideological perspective; it's the real stuff, tried and proven. -- John C. Maxwell, Best-selling author

Recently featured on Joyce Meyer, Pastor Phil Pringle's latest groundbreaking title, Keys to Financial Excellence, will be released in December 2005. It is all too common to miss financial prosperity, because many seek it through the false promises that saturate society. However, there is a key to unlocking the chains that bind individuals to their financial burdens. Phil Pringle explores biblical "keys" and principles that reveal the path to monetary responsibility and success. These keys can let loose the wealth of heaven while instructing readers on how to please God, embrace His glorious abundance here on earth, and reflect His giving nature. "Giving is intrinsic to the nature of God. As His children, giving needs to be basic to our nature as well," Pringle says. In this fascinating book, Pringle introduces applicable, practical ways to experience harvest in our lives while building God's kingdom. Pringle is founder and senior pastor of Christian City Church in Sydney, Australia, and he oversees over one hundred affiliated churches around the world. Whitaker House, located outside of Pittsburgh, Pennsylvania, has more than 30 years of experience in producing biblically based products that minister to the needs of people around the world.

From the Author: Giving is intrinsic to the nature of God. As His children, giving needs to be basic to our nature, as well. My prayer is that this book will not just be messages for leaders to use, but will also be inspirational to every believer who reads it. I pray it will not just provide some teaching about giving, but will also actually cause people to give at greater levels so that churches and ministries everywhere will prosper because of it.
