What's good for the wallet is good for the body—an innovative approach to improving both your wealth and your health. What would you do if you finally lost that weight and had energy to burn? How different would your life be if you were completely out of debt and in control of your finances? And what if you could do both at the same time with just a few simple, sustainable lifestyle changes? It can happen for you—without drastic dieting or austerity budgets, and even if you've tried and failed in the past. Ellie Kay and Danna Demetre are life experts in two seemingly different fields—finance and fitness. Working together, they realized the principles and habits that help you balance your budget are the same ones that help you lose weight and keep it off.
