Stephanie Chandler : Leap!: 101 Ways to Grow Your Business before purchasing it in order to gage whether or not it would be worth my time, and all praised Leap!: 101 Ways to Grow Your Business:

I read it in 3 sittings and hope every entrepreneur on the planet gets to access it. I write that because I am confident any business owner will find great value from this quick read...especially those feeling overwhelmed with all they have to do to keep up with

technology/branding their company online. The book has a very pragmatic tone to it. This empowers you to apply the principles to your specific niche immediately. Days after implementing a few of these easy to follow "ways" I have noticed improved productivity and results that are measurable. It shed great light onto the growth you can experience when you take a step back to evaluate what you and your team are doing day to day. Most importantly it shows you how to effectively delegate and automate areas of your business that may be draining your time (and wallet!). The thorough insight from the experts is the icing on the cake. You will find stories of entrepreneurs from all walks of life throughout the book which bring a very nice flow and personal touch to this great resource. I have read all her books and it baffles me how she keeps the fresh content coming year after year. Job well done on another book that will be by my side all year long!

By Ringo I bought this book as I started a new venture after years of being in business. This time I was taking a idea I had and building a company based on a patent. So I heard about S. Chandler and her simple approach to the complex topic of starting and running a company. The book turned out to be a perfect review and easy read. One that as an experienced businessman I completely agreed with. But what made the book an even greater value was two things. 1. lots of relevant resources, that I still use today. 2. At the end of each chapter was a real life story of successful people in business and how they did it. This book is a must read for anyone in business or starting a business.

GREAT Value!
