The Reisers have done a great service to people at this time of turmoil in our society. Their book not only teaches us about unique individuals who contribute so much wisdom to all that they touch, they also show us wonderful role models for our children to follow. In this permissive society, it is wonderful to learn lessons that help us to value people and to live a life of integrity. The stories are not preachy. They are moving. It makes me want to have this kind of people in my life

Letters from Home: A Wake-up Call For Success and WealthBy Daniel J DeWittThis is a highly recommended read for any parent raising children or adult who is wondering how our society is developing. This is no theoretical text, it is easily readable and the personal stories make the values the authors are emphasizing very real. This is a book that will stay with the reader for quite awhile (hopefully forever) as the topics are timeless. Now, is a time for all of us to emphasize these values and ways of thinking not only in our teaching of children, but modeled in our behavior with other adults. This book will help remind you of what is important. (reviewed also at [...] by Daniel J. DeWitt, PhD)1 of 2 people found the following review helpful. Time for change!By PAKAmerica is in dire need of restoration! But just how is it possible for us to mend her? Quite simply look back upon our forefathers who built this great nation. They did it with values and virtues. Society today seems to focus on instant gratification and entitlement that is owed them. People no longer want to work hard and save for their reward. They want it and want it now! They overextended themselves and that is what ultimately led to this country's financial downfall and crisis.This book touches upon all the virtues that seem to be lacking in today's modern society. Values like education, integrity, honesty, self discipline, patience, hard work, kindness, gratitude, and more are discussed. The format of this book is refreshing. It is a series of heartfelt letters to their sons that are based on each of the values and virtues that are needed to provide personal fulfillment and financial wealth. Each chapter is then exemplified by someone the boys are familiar with. If more (all!) parents followed David and Andrea's advice on instilling these virtues to their children, America would return to her majestic standing!
