Stewart Cowley : Man vs Money: Understanding the curious economics that power our world before purchasing it in order to gauge whether or not it would be worth my time, and all praised Man vs Money: Understanding the curious economics that power our world:

Where is all the money? How does a country go bust? Should I get paid in Bitcoin? Wherever you go, whatever you do, however you live your life, money plays a role. Getting it, keeping it and making more out of it has been one of man's major preoccupations for the past five thousand years. From buying a sandwich to earning a wage, going on holiday to playing the lottery, how money and economics governs our world is fascinating. And it's just about to get more curious; the arrival of modern banking, crowd funding, investments at the touch

of a smartphone and virtual currencies means, for many of us, it is even more complex. Stewart Cowley distils these complexities in this essential guide to modern-day money and our relationship with it. Along the way we discover how the statistics that govern our world are based on guesswork, why stock markets are like a wandering drunken man, what you need to live like a millionaire and why cooking has made man the dominant species on the planet. Man vs Money shows you how understanding a little more economics can improve your life.

"Packed with interesting information (and a bit of maths!), it's a fascinating insight into an area that's often hidden behind an air of mystery." - The People's Friend
