It makes you think about WHY you are disorganized instead of quick fix options of going and getting more containers. If you really follow the steps she suggests, this book will impact your organizational style. 3 of 3 people found the following review helpful. I'm sure this is a fine book, but it is for teens. By psalm84:11 I'm sure this is a fine book, but it is for teens. I do know what to do- when you take something down, out, or off, put it up, in, or on as soon as possible. Don't have multiply projects going at the same time! Take one thing and follow it through from beginning to end. So you see, I do know what to do, it's just a matter of doing these things!! It may sound like an easy task, but believe me, it's not!! 1 of 1 people found the following review helpful. This is one easy to absorb "how to organize" book. By David Slack This is one easy to absorb "how to organize" book. The idea that caught on with me was organize your filing cabinet drop folders exactly the way you think about them. Don't just use some general organization scheme. Make it yours and then you'll be able to find documents quickly and painlessly. I gave it 4 stars only because I still had to organize the documents myself (chuckle chuckle).
