It has a lot of tips, yet doesn't overwhelm you with information.0 of 0 people found the following review helpful. Great for newcomersBy Cristian Guajardo GarciaI'm not an expert in sales, therefore I was looking for a book that introduced me to the field in a straightforward way. I was looking for a book that gave me the foundations of a selling pitch and how to manage my prospects. That is exactly what I found here; this book goes straight to the point, is highly practical and you can definitely apply this framework in the real world. For me was without a doubt, a highly valuable (and fast) reading.2 of 2 people found the following review helpful. Ordered for my sales staffBy WoowooI work as a Sales and Marketing Coordinator for a software development company and our Sales staff needed a refresher and something inspirational to

keep them on the phones selling. The basics are covered and you get an assignment at the end of the chapter so you can apply methodologies. Since we began reading, I have seen a 20% increase in calls and 2 of my salesman have closed contracts. A good read.
