**Antony Falk, Christian Durschner, Karl-Heinz Remmers : Photovoltaics for Professionals: Solar Electric Systems Marketing, Design and Installation** before purchasing it in order to gage whether or not it would be worth my time, and all praised Photovoltaics for Professionals: Solar Electric Systems Marketing, Design and Installation:

1 of 1 people found the following review helpful. ok not long pages on some stuff try different book.By Dennis Garrettok not long pages on some stuff try different book.0 of 0 people found the following review helpful. Five StarsBy MarliHad more information than I needed to safely install the solar array1 of 3 people found the following review helpful. Excellent Overview of Solar PV InstallationsBy Tim P RThis book gives a very structured and

comprehensive overview of planning and installing solar photovoltaic systems, both on and off grid. The book is concise and well illustrated with many diagrams. I recommend it highly.

For the building industry, the installation of photovoltaic systems has become a new field of activity. Interest in solar energy is growing and future business prospects are excellent. Photovoltaics for Professionals describes the practicalities of marketing, designing and installing photovoltaic systems, both grid-tied and stand-alone. It has been written for electricians, technicians, builders, architects and building engineers who want to get involved in this expanding industry. It answers all the beginner's questions as well as serving as a textbook and work of reference, provides designers and installers with practical specialist knowledge needed to design and install high quality solar electric systems and gives a comprehensive overview of the major photovoltaic market sectors. Photovoltaics for Professionals contains over 100 full colour illustrations and covers: Marketing and promoting photovoltaics Solar cells, PV modules and the solar resource Grid-tied PV systems Stand-alone PV systems Practical step-by-step examples are described of how to go about installing systems right from the first customer contact and many useful tips are given to help avoid mistakes.

About the Author Falk Antony, Christian Durschner and Karl-Heinz Remmers all work at Solarpraxis AG, an integrated communications and technical services company predominantly known for its technical publications, but also offering a highly successful range in its service division. Solarpraxis was founded by Karl-Heinz Remmers and Kay Neubert. Published with Solarpraxis.
