Kindle version - NO PAGE Numbers for citing.By CustomerThere is a lot of great information in the text, but you might as well go through Chegg.com or get the print

copy because the Kindle version has NO PAGE numbers and APA does not allow you to cite on Location number. If you have already bought the Kindle version, the best way to cite is based on Chapter title and subheading as evidence to the precise location in the text. This is APA recommendation. Kindle, WTF, start adding page numbers and stop being lazy. 1 of 3 people found the following review helpful. One StarBy CustomerThe digital copy does not include page numbers. How is a college student to properly cite without page numbers?!
