A decent idea generator By Joseph Parnelli got this book along with *The 4-Hour Workweek: Escape 9-5, Live Anywhere*, and *Join the New Rich and Attract Money and More: How you can begin enjoying a prosperous, happy, purposeful life...today*. Overall I found it a very interesting mix of book. While my favorite is the *Attract Money and More* book, each is good in its own way. What I liked best about this book is how "accessible" it is. As I read it, I got a ton of ideas that I could start right away. The problem (if you can call it

that) is that they tended to be small, short-term ideas. I don't feel this is going to lead to a career change, at least not for me. However, I do have to remember that Hewlett-Packard started with a couple of guys building stuff in their garage and Microsoft was started by Bill Gates writing some software in his dorm room, so who knows? Best idea I got from the book: My son turns 15 next month, so I'm going to have him read this and I'm going to work with him to make "entrepreneur" be his summer job next year. I think this book will help us get that started. One other thing to add: If you are going to try to add a little side business, I recommend the 4-Hour Workweek to help you create the time you need to make it happen. And, if you really want to change the way you think about your career, money, and success, read *Attract Money and More*. That will help you make all the other stuff work for you.

By Troy Loral Langemeier has taken the art of building cash and putting into your pocket to a quick step by step system. I recently purchased "Put More CASH in Your Pocket.. turn what you know into dough" by Loral Langemeier to help me generate some simple cash flow. I was searching for a 'system' of simplicity and structure. This book not only places the steps in an easy to read format but also uses worksheets to help in each process. From finding ideas from what a person already knows or possesses skills regarding to taking simple ideas from hobbies to generate cash. It walks the reader through a structure of worksheet exercises from ideas to following already accomplished businesses that generate cash. Best of all it keeps the reader from reinventing the wheel while getting things done. Most importantly, this is a product with pages of content that anyone from any background or age can use to make this happen.

By Susan Ivanicki This little paperback is well written and offers many ways to think about and begin your own small business. The author offers many small, simple ways to use the skills and resources that you have now to earn extra cash. This book is a good guide for those starting small, who might need reminding of some resources they have already and how to put those resources and skills to work earning cash for extra income. This book uses simple steps to help take away the intimidation of "being in a business", because the author wrote the ideas as if she were a friend coaching you. I found this book very helpful.

Money management expert Loral Langemeier tells us it's time to stop pinching pennies and worrying about debt. With *Put More Cash in Your Pocket*, she shows us how to make \$1000 more a month by turning skills, hobbies, and chores into extra income. The Wall St. Journal, Business Week, USA Today, and New York Times bestselling author and personal finance guru regularly featured on Dr. Phil, Langemeier offers a treasure trove of workable strategies for thriving in today's difficult economic times. Don't let the recession get you down! Stop sacrificing and Put More Cash in Your Pocket!

To get a stash of cash that has dash and panache read my great friend Loral's *Put More Cash in Your Pocket*. You will get to play with a whole lot of dough when you apply the principles she teaches, preaches, and practices.

About the Author Loral Langemeier has written three previous books that have made the New York Times, Business Week, USA Today and The Wall Street Journal bestseller lists.
