Patrice C. Washington : Real Money Answers for Every Woman: How to Win the Money Game With or Without A Man before purchasing it in order to gauge whether or not it would be worth my time, and all praised Real Money Answers for Every Woman: How to Win the Money Game With or Without A Man:

28 of 29 people found the following review helpful. WIN at the money game with these REAL money answers!By Christine St.VilThis is not a "nicer" book to read. This is a MUST book to read. Not only does this book

cover the topic of money and kids, but it covers every single topic of money you can think of (getting out of debt, how to save for college, how to get your credit score right and tight, how to tackle money and marriage/relationships, how to say no to family members/friends who keep asking you for money, etc). Seriously, you can't get any more real about the money answers Patrice shares in this book than this. Patrice gives, real, honest and practical tips to winning at the money game. I'm determined to end the generational negligence on money in our family and it's starting with how we raise our kids to understand how it works. 5 of 5 people found the following review helpful. Thank you By Customer Love this book! I've only had this book less than a week and I am almost finished. I am seeing myself all through this book and I am in need of a drastic change. I am a 32 year old female in need of a revamping in the financial department and with your help I see me getting where I desire and need to be. 9 of 10 people found the following review helpful. There is NO such thing as trying! By Lisa a Matthews I've read countless books throughout my life. However, I've never read a book that made me say, "If you can't say Amen, say OUCH!" over and over and over again. And to be completely honest; I needed to say OUCH about my finances. We have to get to a point in our lives where we face the truth and make a decision to suck it up and fix it. "Real Money Answers for Every Woman: How to Win the Money Game With or Without a Man" is a life-changing, YES, life-changing step-by-step and how to guide on how to improve your financial situation by changing your mindset and removing your excuses. After reading this book, I have deleted the word "TRY" from my vocabulary. I'm only using it now to prove a point, but after this review, the word will be non-existent to me. There is no such as "TRYING"; either you're doing something or you're not doing it. From the moment I read Patrice C. Washington's words, "Stop telling me what you are trying to do. You're either doing or you're not doing. There is no in-between." I knew instantly that I picked up the right book for me. If you want to read real, actionable, knowledgeable, and reliable advice on how to win in the money game, this book is a must read. Patrice takes you through 5 steps of understanding your finances including: Assessment, Goal Setting, Creating a Plan, Execution, and Re-Assessment. Most importantly, you will learn how to get rid of every single excuse that you have about money, and you'll be ready to win in the money game. You will have goals with timelines and you'll see the results. This book will change your life!

Now widely available, the popular, award-winning, self-published guide to help women get out of debt, rebuild their credit, and fulfill their financial dreams. Patrice Washington rationalized her excessive spending. "I work hard, I deserve this." "I bought it on sale." But at twenty-two, the recent college graduate was \$18,000 in debt and sinking fast. It was time to take control. Patrice educated herself about finance, adopted a new attitude toward money, and most importantly, adjusted her spending habits. By twenty-five she was debt free and used the wisdom she gained to start her own successful real estate and mortgage brokerage and by twenty-nine started her own financial counseling business. Patrice's former bad spending habits aren't unique, and women find themselves in financial hot water for a host of reasons. Women earn less than men and have to stretch those hard-earned dollars further. They contribute more to caregiving and aging parents, live longer, and many including most African American women are choosing to stay single. Real Money Answers for Every Woman teaches you how to take responsibility for your financial future, whether you're just starting out or need a fresh start. In a handy Q A format, it offers relatable and easy to understand and implement advice on everything from managing credit cards, home ownership, and student loans to affordable childcare and even negotiating for a higher salary. Following Patrice's practical advice, you'll learn to form "wealthy" habits, establish an "opportunity fund," and stop collecting STUFF that causes debt, and discover the freedom that comes from feeling financially secure.
