David Lain : Reconstructing retirement: Work and welfare in the UK and USA before purchasing it in order to gauge whether or not it would be worth my time, and all praised Reconstructing retirement: Work and welfare in the UK and USA:

This assessment of the prospects for work and retirement at age 65-plus in the UK and US is essential reading for researchers, students and practitioners interested in the late careers and the future of retirement.

"I recommend Lain's work to all occupational scientists interested in work and retirement, or more generally, in the ways government policy actively and passively influences people's occupational opportunities, choices, and experiences. These are indeed matters of occupational justice."
