**T. Brian Chatfield : The Complete Guide to Wikis: How to Set Up, Use, and Benefit from Wikis for Teachers, Business Professionals, Families, and Friends** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Guide to Wikis: How to Set Up, Use, and Benefit from Wikis for Teachers, Business Professionals, Families, and Friends:

4 of 4 people found the following review helpful. Good for what it is, but zero codeBy Let's Compare Options Preptorial265 pages of very large type, all prose, no code. OK for a VERY rudimentary intro to wikis, useless if you want to do something VERY basic, like set permissions.Much better are: Wikis For Dummies, Mediawiki (Wikipedia and Beyond), and best and most current and useful of all: Working with MediaWiki.IF YOU HAVE GOTTEN this book or another similar book (use 's keyword: MediaWiki) on creating wikis, and you're at the point where you want to edit and code in earnest, the fastest, cheapest way to do so is to go to Wikipedia, then search the term Wiki markup (that is what Wikimedia and MediaWiki, the parent and free software company of Wikipedia, calls the Wiki editing language). That article is a "how to" of details on all the edit commands, which you'll need as soon as you've got your wiki up and running with the help of whichever book you decide on here.Not knocking the book, just trying to adjust your expectations! ;=)0 of 0 people found the following review helpful. Three StarsBy Jeffrey M. HarrisonGood0 of 0 people found the following review helpful. How to Set Up?By Randall GibsonI got the use and benefit, but my copy of the book didn't come with anything about how to set up a Wiki. And since that is what I really wanted, this book was a complete waste of money.

As the 8th most visited site on the Internet according to the Alexa Internet traffic ratings, and with more than 30 million new words a month of content added regularly, Wikipedia has become a symbol of the web s current incarnation the collaborative project that has developed around the world to compile the knowledge and expertise of everyone. Wikis are a great tool that allow any topic, anywhere, to be compiled and crosschecked by just about anyone to great effect whether it is simply to provide knowledge or to promote a business. A wiki is a tool unlike any other.In this book, you will learn everything you need to know to unlock the potential of the Wiki format. The top secrets, techniques, and strategies used by Wiki operators every day are showcased here in a way that makes it possible for the ordinary person to pick up a Web site and start writing right away, sharing or gathering knowledge for the entire world to read. You will learn in this book exactly why the wiki concept has been so successful but also how wikis do things wrong and how they can be done correctly. The fundamental basics of writing a wiki, including how to format your posts, what to write about, the correct means of writing impartial entries, and how to reference outside sources will be covered in full. You will learn how to edit an existing wiki entry and how to start using your wiki for other purposes. Learn the top 20 strategies for wiki marketing as well as the importance of volume in your wiki and why having a great deal of posts to index in search engines is nearly as important as the writing being high quality.The author has spent time talking and listening to more than a hundred of the Internet s top wiki experts, learning their tricks of the trade and how they have been so successful in presenting their information and have compiled and presented it here for you. You will learn how to start making money with your wiki, how to track changes and revisions, and how different kinds of wikis vary and work in different ways. You will learn how to start building your very own wiki from the ground up using free software and open source tools and why linking and SEO optimization is absolutely necessary to be effective. For anyone who has ever spent ten minutes on Wikipedia wondering how they could start building their very own information compendium, this book is for you a complete guide to everything wiki.Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. Founded over twenty years ago in the company president's garage, Atlantic Publishing has grown to become a renowned resource for non-fiction books. Today, over 450 titles are in print covering subjects such as small business, healthy living, management, finance, careers, and real estate. Atlantic Publishing prides itself on producing award winning, high-quality manuals that give readers up-to-date, pertinent information, real-world examples, and case studies with expert advice. Every book has resources, contact information, and web sites of the products or companies discussed. This Atlantic Publishing eBook was professionally written, edited, fact checked, proofed and designed. The print version of this book is 288 pages and you receive exactly the same content. Over the years our books have won dozens of book awards for content, cover design and interior design including the prestigious Benjamin Franklin award for excellence in publishing. We are proud of the high quality of our books and hope you will enjoy this eBook version.

We started wikiHow with a lot of hope, but little cash. In just four years, thousands of volunteers have collaborated to write 50,000 how-to articles in 6 languages that are now read by over 16 million people a month. All this happened because of the magic of the Wiki Way. The Complete Guide to Wikis explains how you can start a wiki and apply some of the principles of the Wiki Way to your Web site. --Jack Herrick, Founder, wikiHow
