sets used by horses to leading in the work place. A creative way to gain some help dealing with situations of leadership, with interesting examples in the horse herd. 0 of 0 people found the following review helpful. Master piece for anyone who wants to understand the natural secrets of leadership through relationship. By Josselien Janssens This is truly Linda Kohanov's visionary master piece, where her previous books represent crucial cornerstones of the foundations. In this book, Kohanov succinctly outlines the core of how and why to transform leadership in modern society. The social intelligence of horses and other herd animals as well as the ancestral nomadic roots of our species, brings us back to understanding leadership, relationships and our emotions, in the way nature has intended it. The Five Role model is so clear and simple, one wonders how it is possible nobody has seen this before. 0 of 0 people found the following review helpful. Life's lessons. By Katherine E. Ryan Linda has proven once again that she has researched her subject well and utilized the five roles to enhance any business or apply these roles to personal relationships. This is a well written practical guide for horse lovers, business owners and regular folks. Katie Ryan author of: Horse Wisdom Alchemy

Includes Assessment Tool for Analyzing Your Leadership Style and Becoming a Better Leader Across several bestselling books, author and teacher Linda Kohanov has explored "the way of the horse," an experiential wisdom gained by studying the nonpredatory power of horses. In *The Five Roles of a Master Herder*, she adapts these horse-inspired insights into useful tools for developing collaborative leadership and managing change. Over thousands of years, Kohanov writes, "master herders" of nomadic herding cultures developed a multifaceted, socially intelligent form of leadership combining the five roles of Dominant, Leader, Sentinel, Nurturer / Companion, and Predator. The fluid interplay of these roles allowed interspecies communities to move across vast landscapes, dealing with predators and changing climates, protecting and nurturing the herd while keeping massive, gregarious, often aggressive animals together — without the benefit of fences and with very little reliance on restraints.

"An innovative and practical nature-based approach to leadership and life. This book is not just for corporate executives. Parents, teachers, community organizers, film directors, and especially politicians would all benefit from learning these skills." William Shatner, actor, director, and author of *Leonard and Up Till Now* "As a trauma specialist, I help people recover from abuse and criminal acts. Over the years, I've learned that empowered families are crucial to protecting their loved ones to begin with, for helping survivors of extreme experiences heal, and for leading the kind of cultural change that prevents violence. *The Five Roles of a Master Herder* provides a template for all adults to reclaim their power and use it wisely, at work and, perhaps more importantly, at home." Rebecca Bailey, PhD, psychologist and author of *Safe Kids, Smart Parents* "Linda Kohanov presents an intriguing model for human organizations adapted from those found among animals. This beautifully written book is an important addition to the literature on self-actualization, leadership, and natural horsemanship." Rick Lamb, PhD, author of *Human to Horseman* "When Rick Lamb and I coauthored our 2005 book, *The Revolution in Horsemanship*, I didn't fully appreciate our subtitle (*And What It Means to Mankind*), especially as it pertains to the corporate business world. This book, however, made me aware of how an understanding of interspecies animal behavior can powerfully affect our lives today." Robert Miller, DVM, veterinarian, teacher, and coauthor of *The Revolution in Horsemanship* "A seminal masterpiece, Linda Kohanov's *The Five Roles of a Master Herder* is a treasure of enlightened insights on how the nature of horse sense can help us find our balance between the lion and the lamb. Far beyond mere feel-good metaphors and self-help clichés, Kohanov clearly defines how nonpredatory power can lead to an evolved level of emotional heroism and the genuinely empathetic emotional intelligence needed to heal a world suffering a crisis of predatory leaders. A must-read for anyone looking to light the way forward in a darkening, increasingly out-of-control world." Chris Irwin, author of *Horses Don't Lie* and *Dancing with Your Dark Horse*
