forever. In the past, this was a book on real estate that opened my eyes to the value owning multiple properties. While my real estate portfolio has grown well over the years, I always thought it was better to leave the stock market to professionals as my career limits the time I have to watch the markets. That being said, Despite being a preferred client, the so called professionals managed to generate an average yearly return of a 5% on my portfolio over 12 years after fees, loses, commissions, etc..After reading Bill's book " The Great American Dividend Machine", I decided to try Bill's program in March of 2016. It is now October 2017 and my portfolio is up 84% since that point and all it has required is about 5 to 10 minutes a week to follow Bill's guidance. I have followed Bill's suggestions to the letter despite many experts in the market contradicting his choices. Bill's understanding of company value, the time he dedicates to choosing stocks and the simplicity of his program make this book and his program a must for anyone who wants to invest in the market. Although I do not expect this return every year, I am now confident that my portfolio will continually crush the best traders in the market in the years to come with little effort on my part thanks to the wisdom and advice of Bill Spetrino. Thank you Bill!

The book is good, the Dividend Machine newsletter is better at \$100 per year. Layer in and be patient. The dividends will flow.  
By Nathan Watkins  
I subscribe to the Dividend Machine newsletter and wanted to get to know this guy better through his book. The newsletter was recommended by a wealthy client who used to be a successful broker. He owned a number of businesses and followed the newsletter for three years before investing any money. He no longer wanted to do the exhausting research into these companies. It's so much easier to follow the recommendations of a seasoned pro and for the \$100 or so per year, It's nothing. You will make that up quickly. Some people know how to earn money in the market on a consistent basis. Bill Spetrino does it conservatively.

Dividend Machine Pays Dividends!  
By Shome Hope  
Knowledge pays dividends and this book will give you some of that! Reading Dividend Machine may not turn you into the Author/Investor (Bill Spetrino). However, by following his clearly described methodologies/strategies and common sense like wisdom you will have the tools to come out ahead in various ways. This is a fairly easy to understand and a fun to read book, with even some good stories that I could relate to. It is not about some advanced formulations or analyses, but rather strategies that when adopted/implemented consistently have been proven to work. This is especially true when applied correctly, consistently and with patience. I highly recommend this book as part of your investment Toolbox.

Bill Spetrino was just an ordinary accountant more than 20 years ago when he discovered the best investment secret ever. Bill calls his secret the dividend machine; -- and he has been sharing his secrets with hundreds of thousands of investors who have subscribed to his popular Dividend Machine newsletter, rated by Hulbert Digest as the #1 low risk investment letter. But many readers asked Bill to write a book about his secret and how ordinary investors can become millionaires just like him. Bill did just that. Now his new The Great American Dividend Machine reveals his own story, and how he went from becoming a middle-class accountant to having a net worth exceeding more than \$5 million! Traders who jump from stock to stock in the hunt for a major Wall Street score often lose money or, at best, break even. That's not an acceptable fate for the retirement nest egg or for Bill. Instead, true investors trust Bill Spetrino's proven advice: "Keep investments boring and the rest of life fun and exciting." By valuing safety and income above all else, Spetrino guides the reader through the process of unearthing true bargains in the marketplace. Adhering to the author's model, The Great American Dividend Machine portfolio is composed of stocks that he picks using his unique system. The companies that pass Spetrino's rigorous, multi-step vetting process must have a number of key characteristics, such as: Resonant brand names Strong, competitive advantages in their industries Pristine balance sheets Capital to help survive and thrive in difficult markets Bill believes anyone can become a millionaire by ignoring the Wall Street pros and using his time-tested strategies.

About the Author Bill Spetrino: Bill Spetrino (Cleveland, OH) is a professional investor who has spent over two decades honing his own "dividend machine," earning millions for himself and his followers. A native of Cleveland, Ohio, Spetrino holds a degree from John Carroll University in accounting, a subject that he taught for ten years at the high-school level. An entrepreneur, Spetrino set out to develop a secure investment strategy for himself and his family, which led to his newsletter, The Dividend Machine. Bill Spetrino retired from his nine-to-five job at age forty-two, and currently consults from his home in Ohio.
