Addison Wiggin : The Little Book of the Shrinking Dollar: What You Can Do to Protect Your Money Now (Little Books. Big Profits) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Little Book of the Shrinking Dollar: What You Can Do to Protect Your Money Now (Little Books. Big Profits):

32 of 33 people found the following review helpful. An Excellent Resource in Understanding Where We Are and Where We Are HeadedBy D. BuxmanMonetary policy and dollar debasement are not generally easy concepts to understand, but as an investor it is critical that these issues be factored into investment decisions. Addison Wiggin

does an exceptional job of explaining what the Federal Reserve is doing with its Zero Interest Rate Policy and the various incarnations of Quantitative Easing. The highest praise that I can give this book is that it is actually an enjoyable read, reflecting a tight writing style with concise, yet informative chapters. This book will not make you feel good about our economic prospects going forward, but it offers sound advice to help you weather the coming storm. 7 of 8 people found the following review helpful. Huge let down By mwarren101 I bought this thinking it would be of assistance in figuring out my "shrinking dollar" I guess I don't make enough to fit in with this "travel to South America for 'business' jet set". Drives me crazy, all these facts and figures? Not one source quote. Hey, I get money doesn't go as far. Government is creating the next big crash while blaming it on big banks and their CEOs, but how about some REAL advice. Sorry I bought this book now all doom and gloom with no real direction how to protect yourself by someone who is willing and even recommends cut and run when it gets bad? Well, how bad does it have to get? I am not headed out to Uruguay anytime soon with my family in tow. How about some real answers and not scare tactics. Not saying he isn't right! Just doesn't provide any real illumination to really what to do. Got better advice from the Zombie Survival Guide (that's humor in case you missed it). So you feel like you want to tell your friends what to do in the upcoming days? Give the aforementioned book, at least the scenarios in it are fictional with no supporting evidence. Just like this book I am reviewing. 0 of 0 people found the following review helpful. If you think our economy is good By Richard C ; Palson This is not your book if you think our economy is recovering.....or maybe it is the one you should read. Even the author hopes he is wrong. He makes a strong case. I fear he is correct. It's a quick read by a man who knows his subject. Worth your time.

With the weakening dollar a hot topic for retirees, savers, and investors, this Little Book delves into the economic turmoil in the U.S. and shows how to survive it The United States dollar is losing value at an alarming rate. According to the Organisation for Economic Co-operation and Development (OECD) index, the U.S. currency is 37 percent below fair value against the Australian dollar and 20 percent versus the Canadian dollar. The decline of the U.S. dollar is one of the biggest threats facing American investors today, but with the Little Book of the Shriveling Dollar: What You Can do to Protect Your Money Now in hand, you have the knowledge and the expertise you need to fight back. Written by New York Times bestselling author Addison Wiggin, a leading economic forecaster, the book explores the reasons for the dollar's decline, and its precarious relationship to other currencies around the world. Filled with invaluable strategies for retirees, savers, and investors who want to keep their money safe no matter what lies ahead, the book is your one-stop guide to weathering the storm. Covers strategies for safeguarding your wealth, including safer havens for money, alternative investments, and other opportunities Written by Addison Wiggin, a three-time New York Times bestselling author and leading economic forecaster Wiggin's predictions about the decline of the dollar have proven true time and again, making him the right man for the job when it comes to predicting what lies ahead The U.S. dollar is no longer the secure and stable currency that most Americans grew up believing in. Even after recent gains, the dollar remains weak. But with the Little Book of the Shriveling Dollar you have a concise guide to what's driving its demise and everything you need to protect your money today and in the years to come.

About the Author Addison Wiggin is the executive publisher of Agora Financial, a multimillion-dollar financial research firm and publishing group based in Baltimore, Maryland, and coauthor of the international bestsellers Financial Reckoning Day and Empire of Debt.
